VERIDIAN PHARMA LTD. — Quality & Compliance Directorate, Hyderabad Facility

Standard Operating Procedure: Document Control and Archival Retention

Document ID: SOP-QA-050	**Version:** 1.0	**Effective Date:** 2026-01-25
Owner: Meera Rao (QA Head)	**Department:** Quality Assurance	**Status:** Effective

1. Purpose

To establish a comprehensive document lifecycle management procedure governing the creation, numbering, approval, distribution, retrieval, archiving, and destruction of all Good Manufacturing Practice (GMP) documents at Veridian Pharma Ltd., Hyderabad.

Strict document control prevents the unauthorized modification of validated processes, ensures that only current effective procedures are used on the shopfloor, and guarantees that archived records remain retrievable during regulatory audits.

Maintains total alignment with international pharmacopoeial and cGMP statutory documentation mandates.

2. Scope

Applies to all quality policies, standard operating procedures, validation protocols, batch manufacturing records, material specifications, and analytical test records.

Governs all operational directorates including Manufacturing, Quality Assurance, Quality Control, Engineering, Warehouse, and Human Resources.

Mandatory for all document originators, department managers, and documentation cell custodians.

3. Responsibilities

• **Document Control Custodian:** Administer master document numbers, print and issue official watermarked copies, and manage secure document archives.

• **Functional Department Heads:** Author, review, and periodically revise procedures within their operational scope to maintain alignment with current practices.

• **QA Head (Meera Rao):** Authorize final approval for all controlled documents, approve archiving protocols, and countersign destruction authorizations.

4. Procedure

4.1 Standard Document Life Cycle: All GMP documents must follow standardized formatting, numbering, and approval workflows before issuance to ensure operational consistency.

4.2 Controlled Issuance Safeguards: Only authorized document controllers may print controlled copies marked with watermarks and distribution stamps to prevent duplicate unauthorized paper trails.

4.3 Cyclic Review Interval: Controlled documents reviewed every 2 years.

4.4 Batch Dossier Archiving Standard: Batch records retained 7 years after batch expiry.

4.5 Obsolete Copy Reclamation: Obsolete copies removed from points of use.

4.6 Physical Repository Climate Safeguards: Archived records must be housed in a temperature- and humidity-controlled document repository with fire protection systems.

4.7 Electronic Backup Restoration Verifications: Electronic records must undergo regular backup and test restoration exercises to ensure rapid disaster recovery.

4.8 Authorized Document Destruction Protocol: Destruction of records that have exceeded their mandatory retention period requires signed authorization from QA and Legal.

5. Records and Documentation

Document Master Index logs, controlled distribution record registers, physical archiving retrieval tickets, and authorized destruction certificates.

6. Revision History

Version	Effective Date	Change Description
1.0	2026-01-25	Initial release of document control and retention procedure.
